20 April 1982

The Honorable Hans Mark
Deputy Administrator
National Aeronautics and Space Administration
400 Maryland Avenue, S.W.
Washington, D.C. 20546

Dear Dr. Mark:

Plans for the Future Space Missions Colloquium have been progressing steadily since your meeting with the other Sponsors on 12 March. At the suggestion of Admiral Inman and Dr. Keyworth, the number of speakers has been significantly reduced to allow more time for each. Now each has been asked to talk for about one hour. One and a half hours allowed for discussion at the end of the three sessions. Your talk on the Shuttle is scheduled for 4 June.

[redacted] have all agreed to serve as moderators of the military, civil, and other uses sessions respectively. Eberhardt Rechtin has agreed to serve on a panel with [redacted] formulate the findings of the Colloquium. Admiral Inman will moderate this panel and he has agreed to give the keynote address.

As indicated on the preliminary agenda which is enclosed, in addition to yourself [redacted] and [redacted] have all agreed to present papers. Burton Ederson and Noel Hinners will also be invited to speak. Senator Harrison Schmitt has been asked to speak after the dinner for Colloquium participants on the evening of 3 June. STAT

I have enclosed a list of possible participants and a copy of the invitation that will be sent to each. Any further suggestions you have would be most welcome. I look forward to your talk on the Space Shuttle on 4 June. We hope you will participate in as much of the rest of the Colloquium as possible, including the dinner of the evening of 3 June.

Sincerely,

STAT
